

Our

Goals

The realisation of the Business Against Crime Vision will be measured against the following goals:

- Government's institutionalisation and maintenance of proven joint projects in the fight against crime;
- A results-driven and sustainable partnership between Business, Government and Communities in the fight against crime, resulting in a growth in public confidence and the reduction of crime as reflected by the national crime statistics and crime trends;
- A significant reduction in the levels of targeted crime types measured against appropriate agreed benchmarks; and
- Significant improvements in the effectiveness and efficiency of the Criminal Justice System such that it acts as an effective deterrent to crime, operating at levels comparable with international best practice.
